Da Nang City

Passionate about web development with a specialization in front-end and back-end technologies. I have experience in creating high-performance and intuitive web applications. As an expert in JavaScript, React, and Node.js, I enjoy designing innovative solutions to enhance the user experience.

PROFESSIONAL EXPERIENCE

Full-Stack Web Developer (2025-Present)

- Designed and developed web applications
- Optimized performance and enhanced UX/UI
- Led a team of 2 junior developers

Front-End Developer – TechStore(1/2025 – 5/2021)

- Built responsive and user-friendly interfaces
- Implemented APIs
- Worked closely with the design team to ensure visual consistency
